SUMMARY

Full Stack Developer with experience building scalable web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in REST API development, authentication systems, and performance optimization. Focused on writing clean, maintainable code and delivering reliable user-centric solutions.

SKILLS

Languages: JavaScript, TypeScript

Frontend: React.js, Redux, HTML5, CSS3, Material Tailwind, Bootstrap

Backend: Node.js, Express.js, REST APIs, JWT, Socket.io, WebRTC, AJAX

Databases: MongoDB, PostgreSQL

Tools: GitHub, Postman, AWS, Nginx, Figma

Concepts: Clean Architecture, MVC, Data Structures, SOLID Principles

EXPERIENCE

Freelance Full Stack Developer

Jan 2026 – Present

Wedring Matrimony

React.js, Node.js, Express.js, MongoDB

- Developing a full-stack matrimony platform, including a web-based admin panel and cross-platform mobile application.
- Building responsive React.js interfaces, REST APIs with Node.js and Express.js, and MongoDB-backed services.
- Collaborating directly with the client to deliver new features, optimize performance, and maintain production-ready applications.

Full Stack Developer

Mar 2024 – Oct 2025

Cybexel Technologies

React.js, Node.js, AWS

- Developed scalable web applications using React.js and Node.js, improving application performance and user experience.
- Optimized backend APIs and database queries, enhancing system performance and reliability.
- Managed AWS deployments and collaborated with cross-functional teams to deliver production-ready features.

MERN Stack Developer Intern

Nov 2023 – Dec 2024

Brototype

MongoDB, Express.js, React.js, Node.js

- Built full-stack web applications using the MERN stack with responsive user interfaces.
- Implemented JWT authentication, Redux state management, and RESTful APIs.
- Applied MVC architecture and SOLID principles to develop clean, maintainable, and scalable code.

PROJECTS

Online Chess Web Application | React.js, Node.js, Socket.io

July 2025 – Present

- **Built a real-time multiplayer chess platform** with instant move synchronization, reducing gameplay latency by 35%.
- Designed responsive UI components using React.js, improving cross-device usability by 30%.
- Implemented WebSocket-based communication and backend logic, ensuring 99% real-time state consistency.

Wholesale-Retail E-Commerce Platform | React.js, Django, PostgreSQL

Feb 2025 – Apr 2025

- **Implemented a B2B e-commerce platform** with role-based access control, streamlining order workflows by 40%.
- Integrated authentication, advanced product search, and cart modules, improving checkout efficiency by 25%.
- Deployed and configured the production environment using Git and Hostinger, ensuring stable application availability.

Real Estate Platform | React.js, Node.js, MongoDB

July 2024 – Sept 2024

- **Constructed a full-stack property listing platform** with inquiries and favorites system, increasing user interaction by 30%.
- Developed REST APIs and optimized MongoDB schema, improving data retrieval speed by 28%.
- Delivered a responsive front-end interface, enhancing overall user experience and navigation efficiency by 35%.

EDUCATION

Full Stack Development Bootcamp

2022 – 2023

Brototype

Project-based training with mentorship and regular code reviews

Diploma in Computer Engineering

2020 – 2022

Govt. Polytechnic College, Pala
